

## Cradley C of E Primary School

Friday 21<sup>st</sup> May 2021

Dear Parents and carers,

Since September 2020, there has been a requirement for all primary age children to be taught Relationships and Health Education. These subjects are designed to equip our children with the knowledge to make informed decisions about their wellbeing, health and relationships, as well as preparing them for a successful adult life. The world for all young people looks very different from the way it did 20 years ago when this curriculum was last updated – these changes bring the content into the 21st century, so that it is relevant for our children.

As a school we will have the flexibility to deliver the content in a way that is appropriate for our pupils. We are required by law to consult with parents on our school approach to Relationships, Health and Sex Education. We started this process in February last year with a consultation meeting. This was attended by a group of parents, the school nurse and Reverend Katryn. As a result of this consultation meeting, we began to formulate a whole school approach and policy document. To complete our consultation process, I would like to share with you our draft school policy and supporting documents. If you would like to give any feedback or ask any questions, please do so on the form attached to this email. All comments and thoughts are greatly appreciated. Please return any comments by Friday 28<sup>th</sup> May. Many thanks.

Yours sincerely

Mrs M Harris
