Prevent Risk Assessment - 2026-2027

The purpose of a Prevent risk assessment.

A risk assessment encourages settings to consider how learners may be susceptible to radicalisation into terrorism. It should allow settings to consider risks and mitigations to effectively safeguard learners from being drawn into or supporting terrorism. Settings should have proportionate and appropriate capabilities to manage risk and have a clear approach to deal with radicalisation concerns.

What to consider when conducting a risk assessment.

In complying with the duty, education settings and childcare providers should demonstrate an awareness and understanding of the threat and risk in the local area, sector or institution. This risk will vary and can change, but no area or setting is risk free.

This means being able to demonstrate:

- an understanding of the national threat picture
- a general understanding of the risks affecting children, young people or adult learners
- a specific understanding of local risks and the potential impact on your setting or learners
- a proportionate response to the level of threat and risk, considering the phase of education, the size and type of setting
- While the type and scale of activity that will address the risk will differ, all settings should give due consideration to it.

Any decisions made should be proportionate to the risk of radicalisation into terrorism.

Before you begin your risk assessment, we recommend you consider:

- what awareness leaders and managers have of national, regional and local risks
- what training staff have received to demonstrate an awareness and understanding of radicalisation risk
- what actions leaders, managers and staff need take to protect learners from these risk
- how effectively providers collaborate with local partners including the local authority, Prevent leads, the police and community safety partnerships, and DfE regional Prevent coordinator
- how aware learners are of local risks and how to protect themselves
- what is being done to build resilience to radicalisation including protection learners online and raising awareness of online safety
- the actions you have taken to protect learners from radicalisation proportionate to the risk posed in your area, cohort of learners and size of institution
- what options may be available and appropriate to take in response to local risks

This document contains sensitive information that will help you identify and manage the potential risk and threat to extremism that could exist within your locality.

Please do not display in public areas such as public facing school websites, reception areas etc. The information within is for potential risk mitigation purposes only.

	What is the risk	What are the hazards?	What has your institution put in place to ensure sufficient understanding and buy-in from Leadership?		Whaoes your institution need to further action to address the identified risk(s)?			
Leadership	The setting does not place sufficient priority to Prevent and risk assessment/ action plans (or does not have one) and therefore actions to mitigate risks and meet the requirements of the Duty are not effective.	Leaders (including governors and trustees) within the organisation do not understand the requirements of the Prevent Statutory Duty or the risks faced by the organisation. The Duty is not managed or enabled at a sufficiently senior level.	Prevent training/briefing for staff (including SLT) and governors. Working in Partnership	The setting is not fully appraised of national and local risks, does not work with partners to safeguard children vulnerable to radicalisation, and does not have access to good practice advice, guidance or supportive peer networks.	The organisation does not establish effective partnerships with organisations such as the Local Authority and Police Prevent Team.	The providers has strong partnerships with: - Local Safeguarding Children's Partnership - DSL / headteacher forums - LADO - Community Safety Partnerships - Police Prevent Team - Channel panel - Child and family		Meeting with Mark Wilson 24.04.25 to refresh. Capabilities

Staff Training	Staff do not recognise signs of abuse or vulnerabilities, and the risk of harm is not reported properly and promptly by staff.	Frontline staff including governors, do not understand what radicalisation means and why people may be vulnerable to being drawn into terrorism	Training is broader than face to face or e-learning. You should consider how to communicate information to staff e.g. via staff updates, notices, emails		Room for development here sharing any recent or contextual local rises/changes	CW/ZB	Ongoing / fortnightly	Prevent e-learning. Information Sharing	Staff do not share information with relevant partners in a timely manner.	Staff do not feel confident sharing information with partners regarding radicalisation concerns.	The provider has a culture of safeguarding that supports effective arrangements to: • identify children who may need early help or who are at risk of neglect, abuse, grooming or exploitation • help children reduce their risk of harm by securing the support they need, or referring in a timely way to those who have the expertise to help			ZB/CW	Ongoing o	Resources to support information sharing. The department has published guidance on making a Prevent referral. https://www.gov.uk/guidance/making-a-referral-to-prevent

Reducing Permissive Environments								
Building children's resilience to radicalisation	Children and young people are exposed to intolerant or hateful narratives and lack understanding of the risks posed by terrorist organisations and extremist ideologies that underpin them.	The setting does not provide a safe space in which children and young people can understand and discuss sensitive topics, including terrorism and the extremist ideas that are part of terrorist ideology, and learn how to challenge these ideas.
